Project Management/Data Analyst, BI Specialist

Dedicated Data Management and BI Specialist with over 9 years of experience in data analysis, management, and program implementation in humanitarian contexts. Proficient in statistical methodologies and data visualization, with a strong foundation in computer science and public health. Skilled in coordinating with diverse stakeholders and leveraging data-driven insights to enhance program effectiveness. Committed to continuous professional development, holding multiple relevant certifications and a Bachelor's degree in Computer Science. Fluent in English, Dari, and Pashto, with a proven ability to communicate complex data findings effectively.

Educational Background

Bachelor Degree Computer Science (B.C.S)

2015/Sept - 2019/Sept

Khurasan University, Nangarhar

IBM-Data Management Specialization

2025

IBM – Co

Healthcare Data Quality and Governance - Certificate

2025/July

University of UCDAVIS Health System (online)

2024/March Project Management Certificate provided by: Cornerstone OnDemand Foundation

2024/July-2024/Nov DHIS2 Certificate (HISP University of Oslo)

2024/Sept Data Analysis Oracle SQL Certified (Great-Learning)

2024/Aug Certificate of Project Management Provided by Great Learning Academy.

2025/May Data Science (Data Preprocessing) Great Learning Academy

Statistical Deep dive Analysis – Certification

2025 - IBM - Co

Job Experience

| Date & Organization | Position | Job Description | Reason of Leaving |
|--|---|--|----------------------|
| Feb/2025 – Progress BRAC International Organization | Information Management Manager (Global Affair of Canada) | To Ensure the AGE/ASLC EMIS application is updated Analyze and provides accurate reports on monthly basis To Provide AGE/ASLC EMIS analysis report for BRAC Management team on monthly basis. To assist the Management team for preparing and filling the reports for donor. To regularly follow up and monitor the tasks, assigned for EMIS Officer. Make Plan and follow up for the data collection purpose with the coordination of PNGOs. Monitor and follow up the tasks which assigned to Partner NGOs EMIS Officer on monthly basis. Provide advice and tips about data collection and data cleaning to Partner NGOS EMIS Officers. | Progress |

| July/2024 – Feb/2025 (On site) Feb/2025 – Aug/2025 (Online) Mgtwell Consultancy | Data Analyst UNICEF – AFG (BPHS&EPHS) | Perform statistical analysis for BPHS & EPHS based on data collected from UNICEF-TPM. Identify process improvements and recommend changes to management. Prepare training sessions for Quality Assurance Specialists, MA Officers, and Senior Officers. Maintain up-to-date knowledge of trends and best practices in Data Visualization and Data Analysis. Develop and implement innovative applications that ensure compliance with UNICEF quality standards. Prepare trend analyses for each indicator and create key insights and reports. Review the implementation and efficiency of quality inspection systems. Ensure that data collected is accurate, complete, and relevant to interventions, complying with UNICEF standards. Conduct due diligence in reviewing data and reports from field monitors and MA Officers to ensure compliance with UNICEF requirements. Ensure all quality assurance standards are incorporated into data collection, classification, analysis, and reporting for BPHS & EPHS indicators. | Project Based |
|---|--|---|--------------------|
| March/2024 – July/2024 Akram Zada International Group of Companies | Senior Business Intelligence Analyst | Gather and compile data from various sources. Ensure data integrity and accuracy through validation and cleaning processes. Analyze complex datasets to identify trends, patterns, and insights. Utilize statistical methods to interpret data and provide actionable insights. Create comprehensive reports and dashboards to present findings. Use data visualization tools to effectively communicate results to stakeholders. Work closely with cross-functional teams, including IT, marketing, and management, to understand data needs. Collaborate with other analysts to ensure consistency and accuracy in data reporting. Design and implement analytical tools and models to facilitate data analysis.
